Memorial Hall Financial Statement

A statement has been prepared by the G. W. V. A. secretary showing the present financial standing of Strathmore War Memorial Hall, and it is a very satisfactory one.

As the majority of residents in the town and district have contributed to the cost of the Memorial, the statement should be of much interest to them.

It will be noted that the only amount charged for operation, exclusive of fuel, etc., is \$108 for janitor fees. All other work has been done voluntarily by members of Strathmore G. W. V. A. The G. W. V. A. have also put a considerable amount of their funds, which does not appear in the statement, into the hall.

A considerable amount of work has been done on the hall which is not covered in the statement by the contractor. This includes salting, stage fittings, electrical work, preparing the grounds, trepanning work, etc. This was all contributed by the G. W. V. A.

The building is at present not fully insured, the G. W. V. A. not having enough money on hand to renew the insurance. It will also be noted that there are floating liabilities amounting to \$1755.00 still against the hall. It can hardly be expected that these liabilities, together with the interest on the two mortgages can be liquidated out of the hall receipts, but their discharge should be regarded as a debt of honor by the whole community.

The hall will attract no better usefulness as a Community Building when it is clear of debt. Then the rents charged for public assemblies will be set at sufficient yield to cover running expenses.

While most of the people in the district have contributed handsomely and some of them more than once, there are a considerable number who have contributed nothing but have not yet extended it. An appeal is made to these to help out at this time and take their share of the provision of this monument to our beloved dead.

In some cases financial stringency has prevented the donation being made. It is not the intention of the G. W. V. A. to call on those who have already subscribed to again because they would like to see the present floating debt wiped out by the donations of those who have not yet contributed.

The statement is as follows:

Strathmore, Alta., October 9th, 1922

The following statement showing receipts and expenditures in connection with the erection and operation of the Strathmore War Memorial Hall is submitted for the information of subscribers and others interested.

Receipts

As at October 1st, 1922.

By public subscription — \$5,728.78

M. D. of Bow Valley donation 2,000.00

Income on above 19.25

Town of Strathmore donation 750.00

G. W. V. A. donation 226.00

Receipts from dances, concerts, sports days, etc., promoted by the G. W. V. A. 1,711.50

Receipts from Janes, concert 36.50

Receipts from Mrs. Moffat, 1922 317.47

Gifts from J. L. Van Tiesden 775.85

Loan James Gardner's bus 2,552.15

Loan Mrs. D.W.H. bus 1,000.47

Loan Van Tiesden bus 1,000.47

Loan Van Tiesden bus 1,000.47

Threshing is Nearly Completed

Threshing should be nearly finished by the end of this week, with the exception of small patches. Many of the threshing outfits have now pulled in, having completed their run.

Crop results on irrigated land in the Carleton district, north-west of Strathmore, are as follows:

W. M. Hudson, wheat, 30 bu. acre on 40 acres, Vern McKay, wheat, 25 bu. on 40 acres, T. T. Miller, wheat, 20 bu. on 20 acres, Roy Williams, oats, 65 bu. on 100 acres, Burdett Bros., wheat, 100 bu. on 187 acres, Burdett Bros., wheat, 24 bu. on 80 acres.

The best dry land crops in Keoma District was on N. 12 S. 26-26, making 18 bu. per acre on about 160 acres farmed by Geo. Robin.

Vaudeville Entertainment

As will be seen by the attractive posters throughout the district, the big vaudeville entertainment will take place at the Memorial Hall next Monday night, Oct. 23rd, at 8:30 p.m.

This entertainment has the appearance of being first-class in every respect, considerable care and attention has been given to make the entertainment the success it deserves.

The admission prices are popular, and ladies are admitted free to the dance which will follow the vaudeville. The arrangements are in the hands of Mr. Harry Vickers, who advises us that the entertainment will commence sharp on time.

The proceeds of the evening will be handed over to a worthy cause, The Anglican Church Ladies' Guild.

Second Mortgage, Mrs. DeWitt 1,000.00

Note to Union Bank on Tardis 250.00

Owling Gun, Motors Acceptance Corp. for Delec Light 225.00

Appliances, sundry owing contractor including chairs 1,200.00

Yates 250.00

Amount paid on Delec plant 1,125.00

Sundry improvements to hall 125.00

Requiring car for traffic 125.85

Cost of 200 chairs 150.00

Repayment note Union Bank 150.00

Cost of furniture installed 85.00

Interest paid on loans 125.00

To chief censor for amusement 150.00

Burning expenses of hall, coal, kerosene, etc. 363.51

Janitors' wages 100.00

Amount paid to contractor 11,660.00

Cash in bank 32.81

Total 47,174.66

In addition to the rentals shown above, have rentals amounting to approximately \$250.00 for moving facilities have been charged against the building account so that the actual amount to be credited to the hall from this source should be \$1,135.80.

There is a period of thirteen months in the building was not open for some time but last fall when the structure was being done. Under similar conditions it is thought that a reasonable amount per month can be charged from this source. The revenue to be derived from concerts, sports days, etc., cannot be very accurately estimated. It was estimated that \$1,000.00 would be derived from these sources in the year to date. The actual value in the year to date is \$1,711.50.

In the year to date the actual value in the year to date is \$1,711.50.

Amount of the G. W. V. A. charge 125.00

The actual value in the year to date is \$1,711.50.

The actual value in the year to date is \$1,711.50.

The actual value in the year to date is \$1,711.50.

Death of Mr. Jos. Bushman

The death took place at the home of his daughter, Mrs. Young, Chancellors, on Sunday evening, of Mr. Jos. Bushman, of Carletonplace, Wash. Deceased had been up to the district on a visit to his daughter, and to his son, Joe and Paul, who are farming in the district. He was in good health up till Saturday, having been afflicted with the flu. He became ill on Sunday, and expired soon after. The body was shipped from Calgary on Sunday night to his home in Carletonplace, Wash. The deceased was sixty-five years of age, and much sympathy is expressed with the family in their bereavement.

Frost Period

Two weeks ago an article was sent out to Alberta newspapers showing the "first frost period" in the province. To supplement this we will give Alberta people an idea of the periods which are now from the province.

To this end the Publicity and Statistical branch of the Department of Agriculture has compiled from the monthly Meteorological Record a table showing the "six degree period" which indicates the date of the last six degree frost in the spring and the first six degree frost in the fall, and covering dates from the inception of the province to the end of 1921. The figures quoted here are for the period from 1915 to 1921, six years—and farmers who are interested in a subject of this kind should cut out these figures and put them in a way for reference.

Medicine Hat—Average over six years 173 days; longest period 209 days in 1921; shortest period 154 days in 1915; April 5, 1915, and October 22, 1918, are the extreme dates.

Calgary—Average over six years 151 days; longest period 166 days in 1917; shortest 125 days in 1921; May 4, 1919 and October 22, 1918, are the extreme dates.

Edmonton—Average over six years 147 days; longest period 161 days in 1921; shortest period 119 days in 1917; April 24, 1915 and October 8, 1918, are the extreme dates.

Vermilion—Six years average 128 days; longest period 154 days in 1918; shortest period 116 days in 1920; May 17, 1915, and September 20, 1921 are extreme dates.

Faces River—Six years average 121 days; longest period 153 days in 1921; shortest period 115 days in 1916; July 7, 1921, and September 30, 1917 are extreme dates.

In a series of experiments made to determine the time required to mature various cereals it was shown that in 1916 it required 125 days to mature Marquis wheat, 115 days to mature Banner oats, and 140 days to mature O. A. C. barley, calculating the time from the date of seeding to the date of harvesting.

In 1917 Marquis wheat required 119 days, Banner oats 128 days, and O. A. C. barley 158 days. In 1918 Marquis wheat required 129 days, Banner oats 128 days, and O. A. C. barley 158 days.

From these figures it would appear that climatic conditions have a great deal to do with crop production in Alberta.

Alberta Crop Yields

Issued by Publicity Commissioner, Government Buildings, Edmonton.

About ninety per cent. of the threshing in the province is completed, and the threshers' returns have commenced to come in to the Department. Taking these first returns as a whole, they are disappointing, and indicate that the moderate crop estimate made a few weeks ago by Dominion officials was somewhat high.

From the figures before us, the estimate of 13 bushels of wheat per acre is only reached by the averages of the southwestern section of the province. So far other sections reporting are below this figure.

The estimate of the oat yields is also shown to be too high, and the threshing returns would indicate that an average yield of 16 bushels would be about the figure. The whole oat crop of Alberta will be much under that of the past few years. On account of drought conditions in some parts of the province in the foreground of the summer, and with prospects of a short feed crop, much of the oats were cut for green feed.

The first damaging frost came in the province about the 10th of the month. This has given Alberta a particularly long crop season, with the result that the south portion of the province, certain areas of oats sown late for green feed have matured and will be threshed. Taking advantage of continued weather conditions, considerable fall ploughing is being done. The root and vegetable crop, not so heavy as in recent years, is being harvested in good condition.

One thing indicated by the threshers' returns from all sections, is that in a season of such peculiar climatic conditions as we have had in 1922, that summer-fallowing and good farming has brought the best returns.

IRRICANA NEWS

We are glad to report that Mrs. Craig, who was quite badly hurt when her horse, with which she was riding, was thrown, is now recovering.

Thanksgiving November 6th. Mr. and Mrs. Brower expect to move to Mr. George Reeves' home, next week. We understand Mr. Reeves will be away for the winter.

Mr. and Mrs. B. B. Wilson were city visitors this week.

Arrangements have been made by the U. F. W. A. here to hold a Thanksgiving supper on November 6th, at six o'clock, the selling of fowls, home cooking and home made bread is also being arranged for. A new feature in the programme will be the Lemon Lady, who will swallow all the lemon you can give her.

The Harvest-Home services held in the Brotherton church last Sunday were a decided success. The S. S. opened at 10 a.m., with 144 present followed by the Harvest-Home service conducted by Rev. Brecheer, of Glenora, dinner was then served in the basement to over 200 people. The afternoon services consisted of songs and recitations by the children of the two brethren, B. S. The church was very beautifully decorated for the occasion.

Mr. and Mrs. Curle Leonard spent the week-end in Calgary.

Miss Reynolds is visiting her brother, Mr. H. Reynolds.

It is rumored wedding bells will ring near Iricana in the near future.

Three men residing in the vicinity of Iricana were summoned to appear before the police magistrate for shooting on Sunday last, also for shooting on the premises of Mr. E. J. Gregory.

They were fined \$10 each for Sunday shooting and the charge made by Mr. Gregory was withdrawn.

The little son of Mr. Sam Norow, who has been ill last week, is much better.

The trial mill at Belcher had a

Meeting of the Board of Trade

The Board of Trade meeting, held in the Oddfellows' Hall last Tuesday evening, was very largely attended.

The main feature of the evening entertainment was a radio-phone concert by Messrs. Thornton and Demerit, of Calgary. Addresses were to have been delivered, but the evening entertainment was a radio-phone concert by Messrs. Thornton and Demerit, of Calgary.

Kootenai Indians Baseball Champions

The Kootenai Indians who played such a prominent part in the pageant arranged in connection with the David Thompson Memorial celebration, have been crowned champions of baseball at Lake Windermere, B.C.

Not only expert riders and canoeists, but have recently taken up the game of baseball with wonderful enthusiasm. At the Lake Windermere District Fair, held at Lake Windermere, B.C., O. A. C. barter, calculating the time from the date of seeding to the date of harvesting.

In 1917 Marquis wheat required 119 days, Banner oats 128 days, and O. A. C. barley 158 days. In 1918 Marquis wheat required 129 days, Banner oats 128 days, and O. A. C. barley 158 days.

From these figures it would appear that climatic conditions have a great deal to do with crop production in Alberta.

WORLD HAPPENINGS BRIEFLY TOLD

Thieves stole over \$500 worth of platinum while it was being heated in crucibles over a furnace in a temporary vacant Paris laboratory.

The Soviets have sold Germany 20 warships as old iron, according to advices from Russia. They include the Admiral Makarov and the Grombol.

The death of Henri Vignaud, Honorary Counselor for the United States Embassy and Dean of the Diplomatic Corps, was announced by the Paris Herald.

King Albert of the Belgians has accepted an invitation to take part in New York in 1924 in connection with the celebration of the founding of that city.

A floating mine of German construction has been discovered by the fishermen of Antwerp along the route of the steamers flying between Antwerp and Nice.

Lori Reading, the Victory of India, sent to the Dalai Lama over the new telegraph line to Tibet, recently opened, the King's thanks for his friendly greetings.

The Government of New South Wales has agreed in principle to the immigration scheme under which the Commonwealth and New South Wales and Great Britain each pay one-third of the cost of taking out land settlers.

The Combined Court of British Guyana has, by resolution, authorized the Colonial Government to take over and maintain the wireless station established in the colony by the Admiralty some years ago.

There is a coal at Gros Cap, eleven miles from Saint Ste. Marie. Seven pieces were brought to the Saint and placed on exhibition by Charles O'Connor, who has staked out a claim in the Gros Cap field.

George Saleem, an Egyptian student, fired a shot at an automobile in front of the Palace of the Ellys, Paris, by hitting the car of the President Miller.

The shot went wild. President Miller was at his secretary's residence at Rambouillet at the time.

Sir Lee Stack, the Governor-General of the Sudan, has been negotiating in London for further financial support for Sudan irrigation schemes.

It is understood that matters have been so arranged that it will be possible to resume during the autumn work on the Blue Nile dam, Waskara, which was suspended last winter.

A proposal is made to establish an aerial line of communication between Tulle, on the Southwest Madagascar coast, and Antananarivo, in the interior, which is shown to be in full communication with Antananarivo.

The line will reduce to two days a journey which at present takes one month.

Short Crop in France

Whole Wheat Bread to Replace the White Loaf

Whole wheat bread will replace throughout France the pure white loaves and rolls that since the war have received such a warm welcome back to the French dinner table. This is due directly to the fact that this year's wheat harvest in France is estimated much below the yield of last year when there was a bumper crop of \$8,000,000 quintals.

It is feared that before the 1925 wheat crop can be reaped the country will have to buy some 20,000,000 quintals of foreign grain wheat to meet the requirements of the population.

Unit to Live—Must Die

This verdict is rendered a thousand times every week—no corn can live, must pass out, drop off, if Patman's Extract is applied to corns and warts. Use the old reliable "Patman's." It never fails, 25c at all druggists.

Great Strength in Tiny Bodies

Lifting Powers of Certain Insects Compared With Man

Probably the most wonderful feat of a mosquito is its muscularity. This may seem a ludicrous statement, but a great surprise waits anyone who for the first time examines one of these insects under a glass. Size is size, a mosquito's wing muscles are equal to an eagle's. Even on a calm day, a mosquito can fly forty or fifty miles without a halt; and with a helping wind, three times this distance!

Imagine a man who could lift 73,000 pounds! He would have all kinds of "strong men" of past and present become as nothing in comparison with him. Imagine a man who could lift 73,000 pounds! He would have all kinds of "strong men" of past and present become as nothing in comparison with him.

Imagine a man who could lift 73,000 pounds! He would have all kinds of "strong men" of past and present become as nothing in comparison with him. Imagine a man who could lift 73,000 pounds! He would have all kinds of "strong men" of past and present become as nothing in comparison with him.

A Good Teacher

Value of Serving Hot Lunches in Schools

Experience has shown that where hot lunches have been introduced into schools, there has been better attendance on the part of the children because of their better physical condition. There have been fewer failures, and the average class grades have been higher.

The money spent on the re-education of backward children might far better be spent in making possible the hot school lunch.

Mental efficiency is dependent upon physical well-being. A child's brain cannot work if it is not supplied with the proper food. A tired, inactive child has a tired, inactive brain—From The American City.

PALE AND SICKLY GIRLS AND BOYS

Need All the Strength That Rich, Red Blood Can Give Them

Youth is the time for the foundation for health. Every girl and every boy should have plenty of pure, rich blood and strong nerves. With this, their blood they start life with a handicap too great to win success and happiness. Rich, red blood means health, vigor, strong nerves, clear brain and good digestion. In a word, pure blood is the foundation of health.

The signs of weak, watery blood are unmistakable. The pale, listless girl or boy, who has no appetite or no energy, who is always tired, who is thin and does not grow strong, is in need of always the greatest remedy of youth. There is just one thing to do for these children—build up the blood with Dr. Williams' Pink Pills.

You can't afford to experiment with other remedies. There must be no guesswork in the treatment of anemia. Dr. Williams' Pink Pills act directly on the blood, giving it the elements it needs for developing strong, healthy girls and boys. Mr. R. K. Hinch, Hephworth, tells us (follows what these pills did for her daughter): "I think it is time to let others know the benefit which Dr. Williams' Pink Pills have been to my daughter. Her blood is the means of inducing some other sufferer to try them."

Spiders sometimes exhibit wonderful strength, especially in conflict. There is a spider in Java that is the dread of all other insects; it makes a web that can hardly be cut with a knife. With spiders size is not always a measure of strength; but this fellow has both bulk and power.

One writer states that an ordinary man can carry ten times his own weight. Personally, I have seen them do far more than this—J. E. Robakis.

The electric eel, found in Brazil and Guyana, can administer quite a severe electric shock, sometimes strong enough to overcome a horse.

A man of seventy has renewed his finger nails 350 times and has grown 7 ft. 9 in. of nail on each finger.

By a new invention, it is possible to send a message into a telephone receiver and have it recorded on a gramophone record at the other end of the wire, according to recent information.

German Scientist Says American Continent is Drifting Farther West

Is American continent drifting westward and slowly leaving Europe behind? It is, if the theory proposed all the way to the Pacific Ocean, at Hull by the German geologist, Dr. Wegener, is correct. Dr. Wegener declares that the various continents originally were joined at the poles, but that now they are drifting away from the poles and from east to west.

As the moving westward from Europe, he said, and Greenland, still faster than America. He added that this movement had been proved by experiments at observations in Europe and at Washington.

In the discussion which followed Dr. Wegener, of course, old theories were not astronomical observations, mostly of Wegener's consideration. In support of Wegener's theory, Greenland, he admitted, had an apparent drift, showing a change of three-quarters of a mile in position between 1922 and 1924.

All other evidence, however, was against the existence of changes in latitude and longitude.

Seamen have observed the glow of Rio de Janeiro, a city famed for its brilliant illumination, 100 miles out at sea.

Birmingham, Ala., claims the largest school attendance in a proportion to population of any city in the world.

A truckload of hay was one of the wedding presents given to the bride of a Newmarket trader in England.

Cable Between Continents

Duplication of Pacific Cable From Canada to Australia

When completed, the duplication of the Pacific cable from Canada to Australia and New Zealand, will prove one of the greatest engineering feats ever accomplished. The cable runs from Vancouver and touches Panning Island, Norfolk Island and Fiji. An enormous number of messages have been sent over it, and although the new line will cost something like two million pounds it will soon justify the expenditure of this enormous sum. More than seven thousand miles of cable will be needed, and one stretch of the line will be the longest in the world—a distance of 2,453 miles. Some idea of the amount of work that this cable will have to do will be gathered from the fact that nine million wires are telegraphed to and from Australia every year.

It may be a disordered stomach, perhaps cramps or acute indigestion. If you have no remedy handy, you should use Dr. Williams' Pink Pills. They will cure the pain and enable you to get a good night's sleep. They will cure the pain and enable you to get a good night's sleep. They will cure the pain and enable you to get a good night's sleep.

A Simple Little Gown for the Pretty Little Miss

When completed, the duplication of the Pacific cable from Canada to Australia and New Zealand, will prove one of the greatest engineering feats ever accomplished. The cable runs from Vancouver and touches Panning Island, Norfolk Island and Fiji. An enormous number of messages have been sent over it, and although the new line will cost something like two million pounds it will soon justify the expenditure of this enormous sum. More than seven thousand miles of cable will be needed, and one stretch of the line will be the longest in the world—a distance of 2,453 miles. Some idea of the amount of work that this cable will have to do will be gathered from the fact that nine million wires are telegraphed to and from Australia every year.

Threshing Returns

The threshing returns on which the Department of Agriculture bases its estimates of the crop yields, are com-

Toronto.

ing in very slowly to the finished. Threshermen who have finished their work should immediately make returns showing acreage threshed and the yields.

Poppies For Remembrance

"Poppy" day will be held in Canada as well as in all the Allied countries on Armistice Day, November 11. The campaign in Alberta will be conducted by the Provincial Council of the Alberta Great War Veterans' Association, and the actual selling will be in the hands of the various bands throughout the province.

The flowers will be sold during the week preceding Armistice Day. The money proceeds from the Poppy sales will be used to relieve distress among disabled returned men and their dependents in the province. Every citizen of the area who fought so bravely during the Great War and in memory of those who lie amid the crosses.

CRAIGANTLER NEWS

Threshing is now completed in Craigantler. The early irrigated crops have turned out the best.

The first dip of cattle running west of Husker, throughout the summer, came off on October 13th. Some of the farmers were afraid that the cold weather would cause losses among the young stock, but so far everything has turned out allright.

Miss Chase, our school teacher, attended the Teachers' Convention at Lethbridge last week.

Everyone in the district is glad to know that the public phone is now connected up between Craigantler district and Glenora and Standard.

Here on Secret Mission

She is Celebrated As "The Mistress Of The World."

Unearthed and among Miss May, no mysterious woman known as "The Mistress of the World," arrived in the city last night for a brief stay. This celebrated foreigner who is widely known in diplomatic, professional and financial circles of two continents as an athletic beauty who has had a remarkable career filled with tragedy, romance and strange adventures.

Northwestward Miss May's desire to remain invisible to the news of her arrival was thwarted. Every effort, however, made to interview her proved unavailing, but from the most reliable sources information regarding her present trip through the country was obtained. A more astounding story is unknown to fiction.

Aside from the woman concerned, the only other person in the town to share this remarkable secret is Manager Little of the Memorial Hall, and his absolute silence is not to be wondered at when it is known that he is to have the honor of introducing "The Mistress of the World" to his fellow townsmen.

At present Mr. Little is disinclined to divulge the shade of his distinguished visitor but to a reporter he ventured the enthusiastic assurance that when he does introduce "The Mistress of the World" at the Memorial Hall on October 28th, the event will assuredly be regarded as a special one in the history of the town.

Would you believe it if you were told a woman could become so well-known, powerful and commanding a personality as to be universally recognized as "The Mistress of the World"? Whether or not you believe it is a matter which rests entirely with yourself, but upon the assumption that "seeing's believing" you will soon be presented with the opportunity of not only seeing the woman who has advanced herself to this exalted position, but of hearing just how she did it.

When the facts became known—despite the utmost secrecy which had been maintained throughout—news interest prevailed upon Miss May to re-narrate before the cinema camera the exact procedure of the struggle which brought her to ultimate success.

A success which will enable the most incredulous and unbelieving to actually see the titanic struggle of a woman of will and colossal nerve to become "The Mistress of the World," under which title the record will be presented in a series of four Paramount Pictures, each terming with action, ending with thrills and sensationally dramatic as to plot, action, setting and continuity. The first number, "The Dragon's Claw," which will introduce the woman who is now regarded as one of the world's outstanding figures, will be presented at the Memorial Hall on October 28.

Old School Agriculture Open For Ninth Year

On October 21st the doors of the Provincial School of Agriculture will swing open to receive students for the ninth year.

In spite of the difficult financial situation that obtains at the present time, prospects for a good attendance are very ray. Already one-hundred applications for enrollment have been received and more come daily. This shows that the work of the School is being appreciated, and is directly due to the successes achieved by graduates of the School. Another fifty or more students could well be accommodated this winter.

The courses for young men and women, in agriculture and domestic science respectively, are of a very practical nature, and the information given is that of results of many years of scientific investigation and practical observation.

NEXT WEEK WITH THE CHURCHES

ST. MICHAEL AND ALL ANGELS CHURCH

2nd and 4th Sundays at 8:30 a.m. Matins, 2nd and 4th Sundays at 11 a.m.

Evangelist every Sunday at 7:30 p.m. choir practice at 8:30 p.m. on Friday.

UNION CHURCH SERVICES

Sunday, October 22nd, 1922

Strathmore—Morning service at 10 o'clock, the Junior choir will lead in the music. Bible School at all ages at 12 o'clock. Evening worship at 7:30 o'clock. Sermon subject "I Believe in Spreading Christianity." Harvey School at 7:30 o'clock.

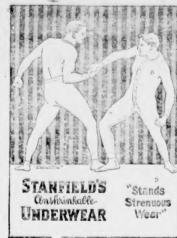

The song service preceding the regular evening worship in the Union Church on Sunday evening was well enjoyed. That community hymn singing in this way is of interest was apparent from the number who came at 7:15 to participate. And many appreciated the fine effect of this song period on the evening worship hour.

ARTHUR H. ROWE, R.A. Minister

Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68

The store which has been vacant for some time between the Post Office and the King Edward Hotel, is being refitted as a jewelry store, and will be occupied by Mr. B. Davis, Jeweler, who is moving at the end of the month from his present location in the Glenview Block. Mr. Davis has now been five years in business in Strathmore, and finds that he requires more space to handle his business.

The premises in which Mr. Davis is located at present will be occupied by Mr. T. M. Wear, Barber.

Several births have to be recorded this week. A son was born to Mr. and Mrs. John Taylor, Nanaima (Colony), on Friday, and on the same day a son was born to Mrs. Perry Waddy. This is a posthumous birth, the father having been accidentally killed six months ago. A son was born to Mr. and Mrs. H. Peterson, Landon, on the 10th inst.

We have just received an interesting letter from Mr. Clyde Riggs, who was resident in the district for several years, being employed by the Strathmore Farm Co. He is now located at Kiowa, Kansas, and married. He states that that section has been very dry, in fact too dry to get any success with the planting of winter wheat. The yield this fall is from 12 to 20 bushels. The alfalfa crop was very good. Clyde and Mrs. Riggs intend to pay Strathmore a visit before long though they are not yet decided as to whether they will locate here or not.

A Canadian farmer, writing to the Market Examiner, Calgary, estimates the cost of raising a 20-bushel crop of wheat or semiarid at \$1.50 per bushel.

Mr. C. O. Dawson is building a chicken house 100 feet by 20 feet. It is the most modern design, half glass in front, with fresh and cool air ventilators. The bill of material is about \$100. Mr. Dawson has probably been the most successful poultryman in this district, and has very confidence in the continued success of poultry as a revenue producer.

Much excitement was caused last week when a local woman left her house and children at one o'clock, one day last week, without stating where she was going. She was missed late that evening, and search parties were out after her, but she returned about one o'clock, stating that she had gone for a walk and not out for any other reason.

The six rooms of the Strathmore schools are again in operation after a partial vacation of two days. The following members of the staff attend the district Teachers' Convention at Banff: Miss Dawson, Miss Sanford, Miss Pauline and Miss Margaretson. They report a very profitable and enjoyable session. Miss Pauline and Miss Dawson contributed readings to the Thursday evening's entertainment. This year Strathmore will be represented on the executive of this district. Miss Margaretson having been appointed second Vice-President and Miss Dawson a member of the executive.

We are glad to see Mr. Tom Barry out again after undergoing a severe operation at Calgary General Hospital.

Strathmore Hospital closed up on Saturday of last week. The closing is regrettable, but is rendered necessary by lack of funds. The Hospital has been a very useful institution to the people of the town and district, but if restarted it will have to be done under the auspices of the local municipal bodies. At this time thanks are due to those who spent so much time and labor in endeavoring to keep the institution on its feet financially.

Mr. H. Presker's dry land wheat crop averaged 29 bushels per acre.

Mr. Parker, father of Mrs. J. H. Brand, former resident of Strathmore, is in town at present on a business visit.

Mrs. Ellen Way advertised a buggy for sale last week in our miscellaneous column, and states that the bug was badly dry on the paper before she had half-drawn inquiries. And yet such a deal of people who are so business-like, or selling for a livelihood do not use the advertising method of moving their stock.

Attention oil stock promoters are looking for suckers among local people by means of circulars through the mails, with promises of cash and huge dividends. It is quite probable that some will fall for it. They are said to be born every minute.

Nurse Hunt, P. N. of Strathmore Outrage Hospital, has accepted position as Superintendent of the Stettin Hospital.

HERVEY NEWS

Mr. J. Bennett, who now has his 12 acres of sunflowers safely packed in his pit also with an estimate of 50 tons of seed, expects to make the winter-tale that flow much more freely this winter as the stock seem to have a great craving for the mentioned food.

The school is now expected to open with a recommended teacher, 15 years experience, to teach per on padded pants.

Mr. Jack Mosdorp, of Whitecourt, spent Sunday at the Two Tree Ranch.

Mr. Hansen, of Calgary, who has spent the past year at his old home in Norway, but now at the Jackson ranch making a visit, reports war conditions slowly clearing up. But that country was so badly hit by financial and commercial war as most other countries, but that labor is not so unreasonably high as compared with other things, as it is in this country.

HARMEN MANNERS SHOCK LONDON SOCIETY

May McVay, popular Rednet star, will be seen as Carlotta, one of Wm. R. Loeck's most delightful comedies, when her latest picture, "Moral," opens on Saturday, at the Memorial Hall, Strathmore.

Boarding in a Turkish harem, where every girl's career, frankly discussed and prepared for her from her very childhood, is marriage, Carlotta is endlessly transported when she is about seventeen, into London society, the ward of a most conventional, highly connected, and impeccable British bachelor.

Here, the girl's childish eagerness to know what kind of a husband her parents mean to give her is so addressed almost as much as do her artlessly rude questions about the age and other intimate details of the lives of his women friends.

All in all, the movie Carlotta gives Sir Marcus a very troubled time of it before he discovers that he loves the delicious little mischief.

WEDDING

On Tuesday evening, October 11th, at 7 p.m., a quiet wedding took place at the home of the bride's parents, Mr. and Mrs. R. A. Anderson, when their second daughter, Margaret Susan, was united in holy matrimony to Mr. and Mrs. R. A. Brown. The bride was given away by her father, and was attired in a pretty pink blue tulle dress trimmed in steel beads. Following the ceremony a wedding supper was served, immediately after which the happy couple left for the home of the groom's parents at Tacoma, Washington, around by Vancouver and Seattle.

"The afternoon speaker Who set the table in a roar Drink our Golden Tips Tea A little while before."

Some time ago we decided to get a Tea and put it up under our own name.

Golden Tips Tea

It was chosen for its qualities which are suitable to the water in the district. Our venture has met with great success and sales of this tea are increasing daily. If you do not already use it, we invite you to try it, and should you not like it we will cheerfully refund your money.

Christmas in the Old Country

Special Arrangements

A visit to the Old Country is something that a great number of people are giving thought to at this season of the year, and many have already made plans to visit their friends in time for the Christmas and New Year Season.

Canadian Pacific Steamships are desirably popular for this trip and to give extra special accommodation for those who are going overseas this season, the Canadian Pacific Railway has arranged for a special train to connect with the S. S. "Montreal" sailing from St. John, Tuesday, December 12th. Through tourist sleepers will be operated from Edmonton at 11:00 p.m. Thursday, December 7, and from Calgary at 1:35 a.m. Friday, December 8th, making connection with this special train leaving St. John at 7:30 a.m. December 9th. Special tourist sleepers from Calgary, Edmonton, via regular trains will also be operated in connection with the sailings from St. John of the S. S. "Montreal" on December 12th, S. S. "Victoria" December 17th, S. S. "Melita" December 20th, S. S. "Montana" December 25th.

All these tourist sleepers run right to the ship's side. No changes, no inconvenience. They are the same plank to the steamer. 25-10-19

A War Story

For some time past the talk of war has been in the air. With the signature by the Turks of the peace agreement it has subsided, but the war at home still persists. The League of Nations scheme has been conceived as an impracticable. Big and powerful nations will have nothing to do with an endeavor to settle arguments by arbitration. Lloyd George, who has since the Great War finished been endeavoring by means of conference, etc., to save the nations involved, is fighting the battle of his life for his political existence.

If the Western nations would stand together with the Turks or other semi-civilized peoples would not contain the menace that it does at present, for under present armament conditions those who attempted to break the peace would be at a hopeless disadvantage. But as long as many on this continent believe what is presented to them by newspapers and politicians that Great Britain and France are after conquest, that they are not at all sincere in their expressions of desire for world peace, we are not going forward. Is it reasonable to imagine that either Britain or France, with the losses they suffered during the Great War, are anxious for further destruction? They are not. At the same time they will not allow the sacrifice made, whether on the French battle line or at the Dardanelles, to go for naught. That would be treachery to the men who died to win the present positions in these countries.

The concentration of force by Britain in the Dardanelles during the recent crisis saved the world another war. The Turks would have virtually committed suicide had they attempted hostilities in the face of the British navy and air activity. The United States gave Britain her moral support though not the promise of her physical support. Canada did not consult herself at all.

Lost we forget the horrors of war we annex herewith a selection from an article in the Veterans' organ of the G. W. V. A., the author being Francis G. Brown, an ex-prisoner of the Canadian Prisoners' articles are the most realistic we have ever seen in describing war as seen by the combatant. Most of the men who went through the fire of war cannot bring themselves to describe the scenes they passed through but it is fortunate that at least one man can. Here is a short extract from the article appearing in the last issue of the "Veteran".

The Sniper's Victim

Having passed through the tortures (physical and mental) we were roughed up once more in hand, some three days a golden field. An enemy sniper was doing deadly work on us.

It had got two bullets. One entered the back of my head at the back of the neck, and the other entered the back of the head and came out at the front of the head. There was a narrow gutter, cut in that field, about 18 inches wide, and the same depth. It was evidently made to drop that bit of land. I lay flat sideways and kept my head down as the sniper's bullets whizzed by, swish-swish past. Then I jumped into an old ditch, the bottom of which was covered with old barbed wire. It was also got into it, and there I lay. Barbed wire does not make an ideal snipe trap inasmuch as what "sniping" is? If you doubt me, try it. It is B. B. was kneeling. I had cut off his clothes. I found one bullet inside the waist of his kilt, coated with blood and flesh. I disgustingly snatched the cursed thing away.

The perpetrator was breaking out all over H. B. B.

"I can't kneel any longer," he said weakly.

"Just another minute, old boy, and I'll have you fixed. Then you can lie down."

"Oh, stretcher-bearer I'm going out,"

"No, no, you'll be alright. You're a little faint, that's all."

I spread his rubber sheet under him and covered him with his kilt and tunic, put his haversack beneath his head for a pillow, gave him a drink of water, stuck his bayonet in the ground with the rifle standing up to him to any snipers following, and then a wounded man lay there, paler than his arm, and told him to cheer up.

"The I said 'I'll have to leave you now, old boy, and follow on with the company.'"

War's Greater Price
"Please don't leave me, stretcher-bearer I'm going out. I've got a wife and four children. The photo is in my tunic pocket. Look at it."

I took out that photo and looked at it. There was a good-looking and cheerful-looking woman with four children clustered round her.

I said: "Yes B. She is a nice-looking woman, and they are pretty children and they look so cozy together."

"Yes," came from a fainter voice. "Whatever happens," I said, "the Canadian Government will see to it that they never want, and God will stand by you B. and so that you are awarded for what you have done."

He flung his unwounded arm round my neck, and said plaintively, in a still fainter voice:

"Talk to me more like that."

I said softly: "I must go now B. and catch up with my company. The ambulance will soon be along."

But before the ambulance came the Angel of Death.

The Sad Story of a Lost Memory

I had not noticed the man sitting beside me on the bus until he addressed me.

"Excuse me, Sir," he said, "but is my face familiar to you by any chance?"

I turned and studied his features for a second or two. His features were not altogether prepossessing, and it was with some relief that I was able to assure him that he was an entire stranger to me.

He did not seem at all surprised.

I said just as calmly: "No, Sir, I am under the disadvantage of not knowing who I am."

I murmured my sympathy.

"I have just returned from a voyage," he continued, "during the course of which I had the misfortune to lose my memory. I understand from information received that I was married one fine day on the seaboard, in a favourite position of mine, when suddenly and without warning the ship gave a lurch and I was hurled into my somewhat inoperative berth to my deck forty feet below."

"I cut onto my head, but suffering little inconvenience save, as I have said, a complete loss of memory."

"I was, however, unconscious for some three days, and during this period my pockets were thoroughly rifled, all my possessions on the ship stolen, and all trace of my identity removed, even the name of my teller was cut out from the suit I was wearing."

"I reported the occurrence to the captain of the boat, who made a thorough investigation which did not, however, lead to the discovery of the thief."

"The purser informed me that my name was Jones, but I was unable to elicit any further information about myself. I had, it appeared, kept strictly to myself on the boat and was personally unknown to any of my fellow-passengers."

"Everyone agreed that there was only one possible remedy, namely, that I should receive another violent blow on the head, which would, as the authorities say, restore my memory to its former state."

"The idea was taken up enthusiastically, and I will gladly admit that all the ship's crew and also the passengers did what they could for me in this respect."

"It became quite customary for everyone who met me to hit me on the

fully over the head with anything that was handy—a marine spike, a gun-wale or some other little weapon. "At deck-rocket, too, I was always placed in the most exposed position possible, and hitmen kindly made a point of firing the ball at my head with all the force they could command."

"With all these helps I received a good many blows on the head, but whether it was that none of them touched the exact spot or whether they were none of them quite hard enough, I cannot say, at any rate my memory stubbornly refused to return."

Mr. Jones paused in his recital. I raised my walking-stick, a stout ash ash.

"This is a poor weapon, I'm afraid," I said, "until my little service I can render—"

"No, no," said Mr. Jones hurriedly, "the time for that is past."

"The ship's doctor, who had himself been only too kind in hitting me over the head with a bottle or chair whenever possible, had at last to give me a general warning that my head would stand no more blows. Indeed, I had myself realized for some time that these well-measured attentions were increasingly embarrassing and painful."

"There was universal disappointment at the doctor's decision, especially on the part of my cabin steward, who had developed great accuracy in hitting my own heels at my head."

"The voyage therefore came to an end without my identity having been established; and thus, alas, it still remains."

"I am now endeavoring to gather funds to enable me to procure in quick time the best form of head-belt salve, and should you, kind Sir,

—Punch.

Memorial Hall, Strathmore, Saturday, October 21st.

YOU GET
THE AMOUNT OF THAT CHEQUE

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER. We are able to offer that farm magazine together with our own weekly at the same price for both papers.

The CANADIAN POWER FARMER is the most popular farm paper in Canada. It is one of the largest papers which means that it is thoroughly established throughout the West. It deals with the practical side of the farm. Every line is full of helpful hints and no question on the operation of all kinds of farm machinery is left unanswered. It is a treasure trove of information for the farmer.

For more information on the value of the CANADIAN POWER FARMER, send for our free literature. We will send you a copy of the magazine and our own weekly at the same price for both papers.

Send for your free literature today. We will send you a copy of the magazine and our own weekly at the same price for both papers.

The Two Papers for Two Dollars

Baintree News

F. E. Wyman, P. J. Lyons, T. Long, John and W. A. Lyons were Calgary visitors the first of the week.

T. Longbottom had a fall on his finger, it now has turned blood poison. He went to Calgary Hospital to have it cared for by Dr. McEwen.

The rural telephone line is now completed and is giving good service. Most all the farmers are on.

Thrashing in this district is nearly all through. And the farmers are busy picking potatoes.

Miss N. Rogers has been visiting the Colburn and Glendinning families.

Mrs. Fenton Smith returned on Tuesday from a lengthy visit with her parents in the States.
